HOW TO RECOGNIZE AN ORIGINAL ELDOR FBT

Eldor Line Output Transformers are the most widely used FBTs in the European TV manufacturing industry and are fitted as original product to over 70% of the total chassis produced.

An Eldor transformer can be easily recognised by the Eldor logo shown on the transformer body and it is identified by the 8 digit Eldor code printed on the label on the transformer body.

The Eldor p/n format is shown as XXXX.XXXX where:

- the first 4 digit indicates the FBT family
- the last 4 digit indicates the serial numbers that identify different FBTs of the same family.

The part number can also have an additional alpha character at the end for Eldor use only.

In the example the Eldor p/n is 1142.5077

COME RICONOSCERE UN FBT ORIGINALE ELDOR

I trasformatori di riga Eldor sono gli FBT più impiegati dai produttori di TV Europei e sono montati come trasformatori originali su oltre il 70% dei telai prodotti.

Il trasformatore Eldor è facilmente riconoscibile dal logo Eldor stampato sul contenitore ed è identificato da un codice di 8 cifre stampato sull'etichetta applicata sul corpo del trasformatore.

Il codice Eldor è composto da un numero di otto cifre nel formato XXXX.XXXX , dove:

- le prime 4 cifre indicano la famiglia del trasformatore
 - le ultime 4 cifre indicano un numero progressivo che identifica trasformatori diversi di una stessa famiglia
- Talvolta il codice è seguito da una lettera ad uso interno Eldor

Nell'esempio il codice Eldor è 1142.5077
