

IST060202电路图 06.04.20

NOTICE: 1. All resistance values are in ohms, k represents k , M represents M .
 2. The rated power of all resistors is 1/8W unless otherwise noted.
 3. All capacitance values without unit are in μF , μ represents μF , n represents nF , p represents pF .
 4. The rated voltage of all capacitors is 50V unless otherwise noted.

5. Product safety should be considered when a component replacement is made in any area of a product. The class of the components indicated by a mark Δ in this circuit diagram have special requirements for product safety. It is particularly recommended that only the parts specified in written manual be used for component replacement pointed out by the mark.
 6. This circuit diagram covers a basic or representative circuit only. There may be some components or printed circuit differences between the actual circuit and the circuit diagram.

PART NO. IET060202

CIRCUIT FOR 21" SLIM CRT COLOUR TV
